

Karl Cassel:

Work Done:

- Shape Files(making the shape files)
- tooltip( making the tooltip and color binding it)
- legend(made the legend)
- html (setup all of the html)

Problems:

- getting the topojson to actually work correctly with the right command
- understanding what was spit out of the topojson
- removing alaska and hawaii
- getting tooltip to work
- getting the paths and colors to work
- mapping the data to each of the specific providences
- fixing the grouping of the providences
